

**ADDENDUM NO. 3
TO
PROFESSIONAL SERVICE BULLETIN No. 09-1**

November 2, 2009

For which Statements of Interest are due by 4:30 p.m. local time by the Illinois State Toll Highway Authority at their offices, 2700 Ogden Avenue, Downers Grove, Illinois 60515, November 5, 2009.

CHANGE NO. 1: Page 17, first paragraph;

Change: The Firm acting as the prime must be prequalified in all of the prequalification categories requested in the project advertisement even if they plan to subcontract part of the project; except where noted in a specific project advertisement. Any work being done by a consultant, prime or sub must be prequalified by IDOT in the category of work they are performing. All pre-qualifications must be approved by date of the PSB advertisement.

To: The Firm acting as the prime must be prequalified in all of the prequalification categories requested in the project advertisement even if they plan to subcontract part of the project; except where noted in a specific project advertisement. Any work being done by a consultant, prime or sub must be prequalified by IDOT in the category of work they are performing. However, if a sub is performing work as a Protégé under the Mentor Protégé Program and the Mentor is prequalified in the category that work is being performed, then the sub can perform the work without the prequalification as long as the Mentor takes full responsibility, provides direction and oversight, and seals the plans as stipulated in the Mentor Protégé Agreement. All pre-qualifications must be approved by the date of the PSB advertisement.

CHANGE NO. 2: Change prequalifications for Item 30

30. RR-09-5595, Environmental Studies Upon Request

Revise the prequalifications as follows:

Firms must be prequalified by IDOT in the following category:

Environmental Reports: Environmental Assessments (EA)
Special Services: Landscape Architecture
Special Services: Hazardous Waste
Special Services: Asbestos Abatement Surveys

The Tollway will allow a Prime consultant to meet the prequalification for Special Services: Landscape Architecture; Special Services: Hazardous Waste; and Special Services: Asbestos Abatement Surveys through a subconsultant.
