

## I-PASS Mounting for Vehicles with Special Windshield Features

The vehicles listed below have been identified by the Illinois Tollway as having special features that require an exterior License Plate Tag (LPT) or alternative placement as noted. In general, windshields that contain metal in the glass (metal oxide) and mirrors with compass or temperature readings may prevent the I-PASS signal from being read properly. Also, the following glass features may interfere with the I-PASS signal and require alternative or exterior mounting: solar ray, solar tint, heated, heat reflected, insulated, Insta-Clear. Please contact the dealership where you purchased your car to see if your vehicle contains any of these features.

MAKE	MODEL	YEAR	FEATURE	ALTERNATIVE PLACEMENT
<b>ASTON MARTIN</b>				
	Vanquish	2001-2007	Insulated glass	
	Vantage	2003-2008	Insulated glass/Heated
