

RESOLUTION NO. 20986

Background

The Illinois State Toll Highway Authority ("Tollway") requires continued service in the area of manual license plate image review as a component of its Violation Processing System. Image review services are critical to the collection of violation revenue because lane photographic technology does not always capture images capable of automatic processing. Bridgeway, Inc. is a participant in the State Use Program. Under the State Use Program, employment opportunities are created for people working in not-for-profit agencies throughout the State of Illinois, and participating businesses can be awarded contracts in their areas of expertise.

Resolution

Contract No. 16-0018 is awarded to Bridgeway, Inc. for a three (3) year contract term. The contract is approved with an upper limit of \$20,000,000 for a contract commencing May 1, 2016 through April 30, 2019; the Chairman or the Executive Director is authorized to execute necessary documents in connection therewith, subject to the approval of the General Counsel; and the Chief of Finance is authorized to issue warrants in payment thereof.

The Vendor must have a minimum two 2 yrs of experience in reviewing digital images and associated data. In addition, Vendor must have an established training program with ample equipment necessary to perform the duties required by this contract. The Vendor must provide manual Image review of potential toll violators and license plate verification services. The image review process consists of the following: a reviewer is presented with a screen shot that includes a photo or multiple photos of a vehicle, recorded by the violation system as not paying the appropriate toll, and the associated license plate along with an OCR generated read of the plate. The reviewer must then compare the photo images with the OCR information. The reviewer accepts the OCR read, edits/modifies the information, or rejects the image if not reasonably certain about the correct license plate information or if and when available forwards the image to a Supervisor for review. Vendor is responsible for reviewing and certifying the accuracy of digital vehicle images (Image Review), including but not limited to license plate characters, license plate type and license plate state and/or province of origin.

The reviewer will be presented, at one time, with all violation images for a single license plate number/type/jurisdiction that are now eligible for a violation notice. The reviewer must determine if the original review was accurate, and if not, the reviewer must correct the applicable information and save. If the information cannot be corrected, the image should be rejected. If the reviewer is unsure what to do with the violation, the violation should be sent to a Supervisor for further review.
- 1.1.2. **Supervisor Review – (New process that may be implemented at some time during the contract period)** The Vendor will be responsible for verification of images forwarded from a reviewer who is not certain how to process the images. The image(s) will be accepted and certified, or rejected based on the Supervisor determination of the information and image available.
- 1.1.3. **Image Review Payment Points** The payment point for image review will be based on each violation transaction event reviewed. A violation event may be comprised of multiple photos plus transaction data; the pay point will in any case be considered a single event. Payment will be applicable to R1 and R2 reviews only.
- 1.1.4. **Quality Program.** An internal random sampling of Image Reviews will be made available to the Tollway by the system provider. The Vendor must provide a quality monitoring program that scores and evaluates agent performance. It must provide an action plan to address recommendations provided by the Tollway. The Vendor must respond in writing to recommend action plan revisions provided by the Tollway within five (5) working days. Further, it must develop and implement action plans to continuously improve

the Image Review accuracy. These plans must be made available upon request by the Tollway. Vendor will be expected to work with the Tollway to provide methods for each staff person to make suggestions for improvements to the program. The Tollway will consider these methods successful when the input significantly improves the operation. The Tollway will make every effort to provide a response to each suggestion when the staff person is identified with the input.

1.1.5. **Training** 1. Training of Vendors staff and material is at Vendor's expense throughout contract. Tollway will provide initial training on the program and any new initiatives thereafter the Tollway will Train the Trainer. 2. Vendor is responsible for developing training manuals.
