TRAFFIC SHIFTS SCHEDULED TO RESUME WORK ON TRI-STATE TOLLWAY (I-294)/I-57 INTERCHANGE PROJECT

Work in 2021 includes completion of roadway widening on I-57, as well as continued ramp construction

DOWNERS GROVE, IL – Traffic shifts on the Tri-State Tollway (I-294) and I-57 are scheduled to begin next week as work resumes on the I-294/I-57 Interchange Project. Work is continuing to construct the new interchange ramps that will connect northbound I-294 to northbound I-57 and southbound I-57 to northbound I-294, as well roadway widening on I-294 and I-57.

Electronic message signs and construction signage will be put in place in advance to alert drivers to changes in traffic patterns and construction throughout the construction season. Up-to-date information regarding lane closures will be available in the Illinois Tollway's Daily Construction Alerts. All work is weather dependent.

Work in 2021 includes completion of roadway widening on I-57, widening of the I-57 bridge over Dixie Highway, replacing the 147th Street Bridge, as well as continued construction of the ramp connecting northbound I-294 to northbound I-57 and the two ramps carrying southbound I-57 to I-294, including a flyover ramp bridge. Work to widen the CSX Railroad Bridge on I-57 is also scheduled to begin this year.

"The Illinois Tollway is committed to ensuring the roadway remains safe for both drivers and workers during construction, which is part of our overall commitment to roadway safety," said Illinois Tollway Executive Director José Alvarez. "We ask drivers to be attentive in work zones by watching for changing traffic patterns and using caution, especially when workers are present."

Beginning the week of March 22, traffic on southbound I-294 will be reduced from four to three lanes to provide a work zone to construct the new auxiliary lane from southbound I-57 onto southbound I-294. Work will also continue to build retaining walls and reconstruct mainline bridges. Traffic is scheduled to remain in this configuration through summer.

In addition, on I-57, traffic shifts will be scheduled in both directions between Kedzie Avenue and 147th Street as well as between 147th Street and Thornton Road. These closures and shifts are needed for ramp pier work located in the median of I-57 and for work to widen the bridges over 149th Street and Dixie Highway, as well as on collector-distributors roads and retaining walls. After the shifts are put in place, traffic is scheduled to remain in this configuration into summer.

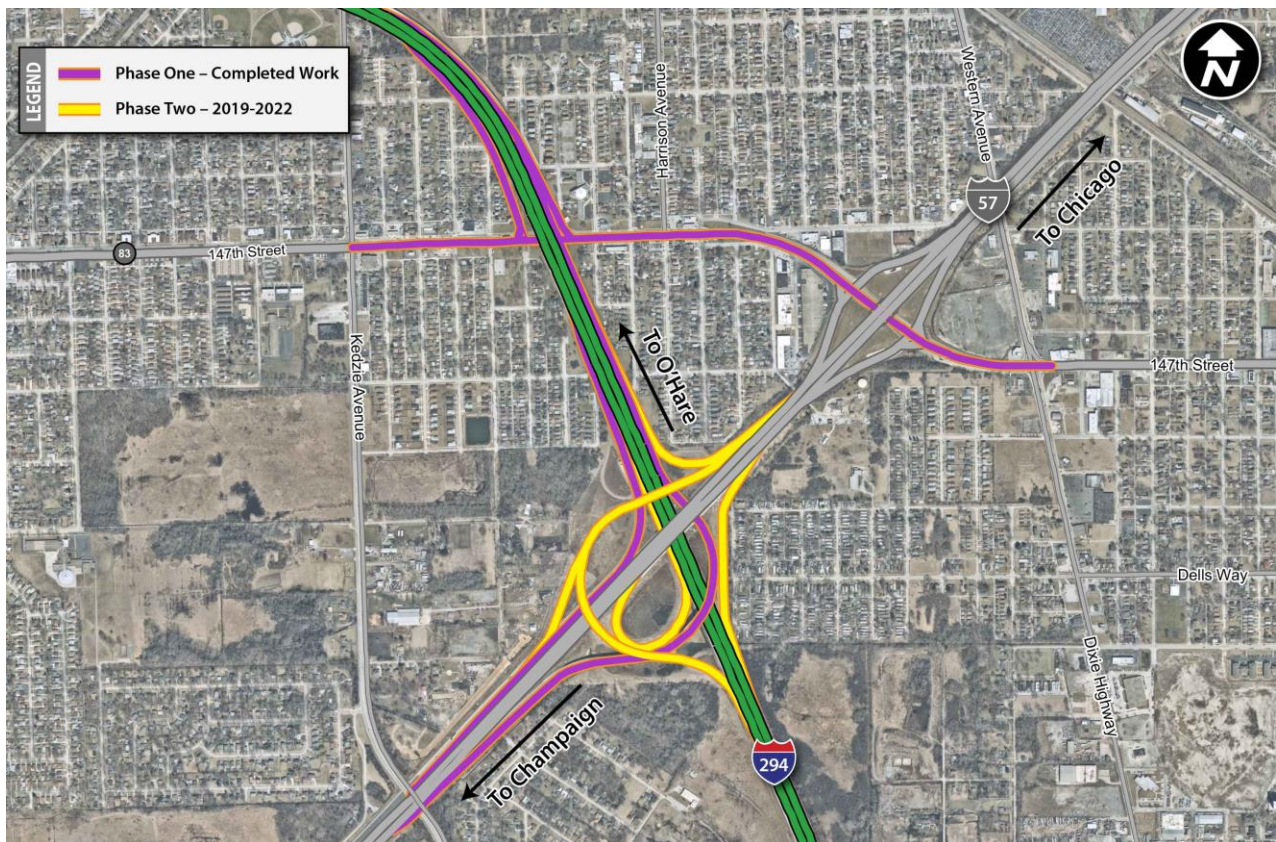

This work is part of the second phase of the I-294/I-57 Interchange Project, which is building four new ramps to connect southbound I-57 to I-294 and 294 to northbound I-57, including the flyover ramp bridge. The flyover ramp bridge will carry traffic from southbound I-57 to southbound I-294 and from 147th to southbound I-57. The multi-span structure will be 2,649 feet long with a bridge deck approximately 16 feet above I-294 and 17 feet above I-57. Interchange construction is scheduled to continue into 2022.

Additional work on this project includes the reconstruction of the I-57 median and the widening of the I-57 mainline, as well as drainage improvements, erosion and sediment control, retaining wall and bridge construction.

Maps and construction information about the Tri-State Tollway (I-294) I-57 Interchange Project is available in the Project's section on the Tollway's website at www.illinoistollway.com.

The \$719 million I-294/I-57 Interchange Project is funded by the Illinois Department of Transportation and the Illinois Tollway's 15-year, \$14 billion capital program, Move Illinois: The Illinois Tollway Driving the Future.

The new interchange is improving travel by providing customers with completed access between the two interstates. For the first time, the new I-294/I-57 Interchange provides motorists with access between I-294 and I-57, including a new interchange at 147th Street. The complete interchange will reduce congestion on local routes, enhance economic development and improve regional mobility. The all-electronic interstate-to-interstate connection better serves commuters and freight operators while opening access for local communities.

Work Zone Safety

Construction zone speed limits are in effect in all construction zones 24/7 and drivers should continue to watch for changing traffic patterns and use caution, especially when workers are present. On I-294, a 55 mph work zone speed limit is in effect throughout the construction season. On I-57, work zone speed limits will also be in effect throughout the construction season.

The Illinois Tollway reminds motorists that the "Move Over Law" requires motorists to change lanes or to slow down and proceed with caution when passing any vehicle on the side of the road with hazard lights activated. If you see flashing lights ahead, please move over or slow down.

Illinois State Police have zero tolerance for drivers speeding in work zones or failure to comply with the Move Over Law. The minimum penalty for speeding in a work zone is \$250 with up to a \$25,000 fine and a 14-year jail sentence for hitting a roadway worker. Penalties for failure to slow down or move over for a vehicle on the shoulder with flashing lights includes up to a \$10,000 fine, 2-year suspension of driving privileges and jail time, in extreme cases.

About Move Illinois

The Illinois Tollway's 15-year, \$14 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*, is improving mobility, relieving congestion, reducing pollution, creating as many as 120,000 jobs and linking economies throughout the region. The first nine years of *Move Illinois* is on schedule and within budget, delivering the rebuilt and widened Jane Addams Memorial Tollway (I-90) as a state-of-the-art 21st century corridor and opening a new interchange connecting the Tri-State Tollway (I-294) to I-57. Progress continues on projects addressing the remaining needs of the existing Tollway system, delivering the Elgin O'Hare Western Access Project and reconstruction of the Central Tri-State Tollway (I-294).

About the Illinois Tollway

The Illinois Tollway is a user-fee system that receives no state or federal funds for maintenance and operations. The agency maintains and operates 294 miles of roadways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I-80) and the Illinois Route 390 Tollway.
