TRAFFIC SHIFT SCHEDULED ON 88TH/CORK AVENUE AS PART OF INTERCHANGE WORK ON THE CENTRAL TRI-STATE TOLLWAY (I-294)

Bridge work continues requiring long-term lane closures on 88th/Cork Avenue

DOWNERS GROVE, IL – Traffic on 88th/Cork Avenue is scheduled to shift this week onto the northbound side of the bridge over the Central Tri-State Tollway (I-294) as part of the Illinois Tollway's construction of a new interchange in Justice. Traffic is currently reduced to one lane in each direction on the bridge and will remain so after the shift.

The lane closures and traffic shifts are necessary to safely accommodate traffic and provide a work zone for bridge reconstruction work. Electronic message signs and construction signage will be put in place in advance to alert drivers to changes in traffic patterns throughout construction. Up-to-date closure information will be posted on the Tollway website in the [Daily Construction Alert](#). All work is weather dependent.

On June 16, all traffic is scheduled to shift onto the newly reconstructed northbound side of the bridge to allow for the removal and reconstruction of the southbound side of the bridge. Traffic is scheduled to remain in this configuration through the end of the year.

The Illinois Tollway began construction for \$39 million 88th/Cork Avenue Interchange Project on I-294 in 2022. The project includes construction of new ramps connecting 88th/Cork Avenue to the Tri-State Tollway (I-294) along with other local roadway improvements to both accommodate for the larger Central Tri-State Project as well as to improve local traffic circulation and provide congestion relief.

The Tollway will construct a new exit ramp from northbound I-294 to 88th/Cork Avenue and a new entrance ramp from 88th/Cork Avenue to southbound I-294. In addition, the Tollway will widen the 88th/Cork Avenue Bridge over I-294 to provide a southbound left turn lane, as well as additional pedestrian and bicycle access, noise walls and drainage and lighting improvements.

The new interchange is designed to be compatible with a new ramp connecting westbound Archer Avenue to northbound I-294, which is being constructed by the Illinois Tollway as part of the \$4 billion Central Tri-State Tollway (I-294) Project.

Construction on this project is being coordinated with the Illinois Department of Transportation, Village of Justice, Cook County Department of Transportation and Highways, as well as local fire and police departments.

Information about the 88th/Cork Avenue Interchange Project including maps and construction updates is available on the Tollway's website at www.illinoistollway.com in the Projects section.

Work Zone Safety

Construction zone speed limits are in effect in all construction zones 24/7 and drivers should continue to watch for changing traffic patterns and use caution, especially when workers are present. On I-294, a 45 mph work zone speed limit is in effect throughout the construction season. On 88th/Cork Avenue, a 35 mph work zone speed limit is in effect.

The Illinois Tollway reminds motorists that the “Move Over Law” requires motorists to change lanes or to slow down and proceed with caution when passing any vehicle on the side of the road with hazard lights activated. If you see flashing lights ahead, please move over or slow down.

Illinois State Police have zero tolerance for drivers speeding in work zones or failure to comply with the Move Over Law. The minimum penalty for speeding in a work zone is \$250 with up to a \$25,000 fine and a 14-year jail sentence for hitting a roadway worker. Penalties for failure to slow down or move over for a vehicle on the shoulder with flashing lights includes up to a \$10,000 fine, 2-year suspension of driving privileges and jail time, in extreme cases.

About Move Illinois

The Illinois Tollway’s 15-year, \$14 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*, is improving mobility, relieving congestion, reducing pollution, creating as many as 152,000 jobs and linking economies throughout the region. The first 11 years of *Move Illinois* are on schedule and within budget, delivering the rebuilt and widened Jane Addams Memorial Tollway (I-90) as a state-of-the-art 21st century corridor and opening a new interchange connecting the Tri-State Tollway (I-294) to I-57. Progress continues on projects addressing the remaining needs of the existing Tollway system, delivering the Elgin O’Hare Western Access Project and reconstruction of the Central Tri-State Tollway (I-294).

About the Illinois Tollway

The Illinois Tollway is a user-fee system that receives no state or federal funds for maintenance and operations. The agency maintains and operates 294 miles of roadways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I-80) and the Illinois Route 390 Tollway.
