ILLINOIS TOLLWAY READY FOR RUSH HOUR SNOWFALL

Drivers should slow down, move over for stopped vehicles with flashing hazard lights

DOWNERS GROVE, IL – The Illinois Tollway has mobilized its full fleet of 196 snowplows in response to snowfall that is expected to continue through the Friday rush hour, possibly affecting drivers during their evening commutes. The Tollway's Snow Operations Center is open to manage the agency's systemwide response.

"Our crews are out clearing the roads to help our customers complete their commutes and safely reach their destinations," said Illinois Tollway Executive Director Greg Bedalov. "As part of our commitment to safety, we're asking drivers to assist us by slowing down, allowing plenty of extra time to reach their destinations and giving Tollway snowplows the room they need to keep the roads clear."

To respond to this weather event, the Illinois Tollway will have a full complement of more than 200 staff and supervisors per shift to ensure that roadways are kept clear of snow and ice.

During heavy snowfall, snowplows often work in tandem to remove as much ice, slush and snow as possible from all lanes at once. When it is safe to pass, the plows spread out and allow traffic to flow around them.

Drivers whose vehicles become disabled should activate their hazard lights and dial *999 from a cellphone for assistance from Illinois State Police District 15, while noting the roadway they are using, as well as the direction of travel and nearest milepost or crossroad. For crashes involving property damage only, drivers should report the incident to 630-241-6800 ext. 5042 and continue driving.

When traveling, drivers should be alert to any vehicle on the side of the road with emergency or hazard lights flashing and remember to obey the Move Over Law and slow down, change lanes safely if possible and [Give Them Distance](#).

Illinois Tollway Keeps Drivers Informed

In addition to working to keep roads free of snow and ice, the Illinois Tollway provides drivers with information to help them reach their destinations safely during winter weather events.

The Illinois Tollway's Traffic and Incident Management System provides real-time travel times and roadway conditions on over-the-road electronic message signs throughout the Tollway.

Real-time roadway incident information including the type of incident, location and impact on traffic is also available on illinoistollway.com or via Twitter to assist drivers in planning their trips. Drivers can sign up for Tollway Trip Tweets at twitter.com from the Tollway's website at illinoistollway.com. Tweeters can follow all five Tollway Trips or just the roadways that interest them. The five are Tollway Trip 90, Tollway Trip 94/294, Tollway Trip 88, Tollway Trip 355 and Tollway Trip 390.

Tollway Travel Tips

The Tollway offers the following [tips for winter weather events](#):

- Slow down and leave enough time to reach your destination.
- Do not make sudden lane changes and always use your turn signal.
- Don't follow too closely and increase your intervals between vehicles.
- Reduce speed on ramps and toll plazas.
- Remember to always wear your safety belt and ensure children under the age of 8 are securely restrained in child safety seats.
- Don't text or use a hand-held cellphone while driving. Both are illegal.
