Director Sauer made a motion for approval; seconded by Chairman Schillerstrom. The motion was approved unanimously by those Directors present, Director Brooks having not yet entered.

Committee Chair Gomez then called on Greg Bedalov, Executive Director.

Executive Director’s Items

Debt Management Update: With an expressed interest in providing the Committee with background for three items on the Meeting agenda related to the financing of the Tollway’s Move Illinois Program, Executive Director Bedalov introduced Mike Colsch, Chief of Finance, to present an overview of the assignment of bond underwriting groups and the financial advisory services needed in connection with $800 million in new bond authorizations to be requested. See attached presentation.

[Director Brooks entered at approximately 11:18 a.m.]

Proposed Release of Retainage Policy Changes: Executive Director Bedalov then introduced Paul Kovacs, Chief Engineer, to present proposed revisions to the Tollway’s release of retainage policy which will allow a more efficient release of retainage, helping contractors and subcontractors with cash flow. See attached presentation.

Committee Chair Gomez commended the Chairman, the Executive Director and staff for the proposed changes to the release of retainage policy, suggesting that expediting the release of retainage will assist small firms doing business with the Tollway. Director Sauer concurred with
sentiments expressed by Committee Chair Gomez, suggesting that the policy revisions should benefit disadvantaged, minority- and women-owned business enterprises.

**Items for Consideration**

Committee Chair Gomez then called on Mike Colsch, Chief of Finance, to present the following Finance Items:

*Item 1:* Approval of funding for the Workers’ Compensation Insurance Claim Reserve Fund in the amount of $8,775,000.00 for the 2015-2016 program year, including a reduction of $2,799,655.00 for open claims for program years prior to April 30, 2015.

Director Sauer made a motion for approval; seconded by Director Brooks. Committee Chair Gomez asked if there were any questions, concerns or requests for discussion.

Chairman Schillerstrom, referencing Finance Item 1, requested confirmation that the Tollway operates a completely self-funded Workers’ Compensation plan. Mr. Colsch confirmed.

Chairman Schillerstrom asked if an analysis was performed which determined that operating a self-insured Workers’ Compensation program is the most cost effective option for the Tollway to manage Workers' Compensation risks. Mr. Colsch responded in the affirmative. He clarified that the original analysis was performed some years ago, and, therefore, the Tollway is currently reaching out to brokers and agents to evaluate whether the insurance marketplace has changed. He added that pending results of the review, it is the Finance department’s expectation that a self-funded plan will continue to be the approach which will maximize the Tollway’s opportunities to control costs.
Hearing no further questions, Committee Chair Gomez called for a vote on the pending motion. The motion was approved unanimously.

Committee Chair Gomez then called on John Donato, Chief of Procurement, to present the following Procurement Items:
