

CENTRAL TRI-STATE TOLLWAY

Corridor Planning Council

Adopted Guiding Principles

September 15, 2015

- Develop and support an inspired vision that accounts for existing and future demand along the Central Tri-State Tollway (I-294) and the Tollway system as a whole; providing safe, efficient and appealing transportation choices for all corridor users including freight, passenger, transit, bicyclists and pedestrians
- Improve travel reliability, performance and access of the Central Tri-State Tollway corridor to support economic opportunity, increase mobility and continue growth in the region
- Minimize the environmental impacts by promoting collaborative, efficient sustainable practices, including but not limited to stormwater best management practices
- Support financially viable solutions, in coordination and collaboration with partners, that address the corridor needs of today and the flexibility to address future regional needs
- Encourage an open and collaborative regional planning process among council members to guide the development of a regionally appropriate vision for the corridor
- Consider innovative solutions that enable the use of technology to ensure maximum utility of infrastructure along the corridor

Approval of Guiding Principles: Motion was made by Shirlanne Lemm, and seconded by David St. Pierre to approve the Guiding Principles. **Motion carried.**
