Item 1: Authorize the issuance of revenue bonds to refund all or a portion of the Series 2007A, 2008A and 2009A Bonds.

Committee Chair Gomez inquired about savings to the agency of refunding. Mr. Colsch responded that, given current market conditions, there are anticipated to be net present value debt service savings in the approximate amount of $4 million associated with the 2009A bonds. He clarified that the purpose of the refunding of 2007A and 2008A series bonds is to eliminate risk associated with the structure of these bonds.

Director Vazquez Rowland inquired about marketplace rates for traditional fixed rate bonds and potential timing of a refunding. Mr. Colsch responded that the coupon rate for the 2009A bonds, refunded through 2024, is anticipated to average less than 2.5 percent. He further explained that
the timing of the refunding would be based on net present value debt service savings, anticipated to amount to approximately 5 to 6 percent.
