ILLINOIS TOLLWAY PREPARED FOR WEEKEND SNOW

Drivers reminded to slow down and be alert for variable road conditions

DOWNERS GROVE, IL – The Illinois Tollway is deploying its full fleet of 196 snowplows in response to snowfall Sunday that could possibly reduce visibility and create icy patches on portions of some roadways. The Tollway’s Snow Operations Center is open to manage the agency’s systemwide response.

“Our crews will be removing snow and spreading salt to keep our roads clear so our customers can safely finish their weekend trips,” said Illinois Tollway Executive Director Greg Bedalov. “The snow, combined with the extended cold weather we have been experiencing, could result in slick or icy patches forming on ramps, bridges and portions of some roads, so we are urging drivers to please slow down, maintain a safe margin between vehicles and give our snowplows the room they need to do their work.”

To respond to this weather event, the Illinois Tollway will have a full complement of more than 200 staff and supervisors per shift to ensure that roadways are kept clear of snow and ice.

Drivers whose vehicles become disabled should activate their hazard lights and dial *999 from a cellphone for assistance from Illinois State Police District 15. Drivers will be asked to note the roadway they are using, as well as the direction of travel and nearest milepost or crossroad. For crashes involving property damage only, drivers should report the incident to 630-241-6800 ext. 5042 and continue driving.

When traveling, drivers should be alert to any vehicle on the side of the road with emergency or hazard lights flashing and remember to [Give Them Distance](#) by obeying the Move Over Law by slowing down and changing lanes safely..

Illinois Tollway Keeps Drivers Informed

In addition to working to keep roads free of snow and ice, the Illinois Tollway provides drivers with information to help them reach their destinations safely during winter weather events.

The Illinois Tollway’s Traffic and Incident Management System provides real-time travel times and roadway conditions on over-the-road electronic message signs throughout the Tollway.

Real-time roadway incident information including the type of incident, location and impact on traffic is also available on illinoistollway.com or via Twitter to assist drivers in planning their trips. Drivers can sign up for Tollway Trip Tweets at twitter.com from the Tollway’s website at illinoistollway.com. Tweeters can follow all five Tollway Trips or just the roadways that interest them. The five are Tollway Trip 90, Tollway Trip 94/294, Tollway Trip 88, Tollway Trip 355 and Tollway Trip 390.

Tollway Travel Tips

The Tollway offers the following [tips for winter weather events](#):

- Slow down and leave enough time to reach your destination.
- Do not make sudden lane changes and always use your turn signal.
- Don't follow too closely and increase your intervals between vehicles.
- Reduce speed on ramps and toll plazas.
- Remember to always wear your safety belt and ensure children under the age of 8 are securely restrained in child safety seats.
- Don't text or use a hand-held cellphone while driving. Both are illegal.
