

A stylized graphic of a road network. It features several grey lines representing roads, some of which are dashed to indicate lane markings. The roads intersect at various points, forming a grid-like structure on the right side and a more complex network on the left. Small colored circles (orange, purple, blue, green, red, pink, yellow) are placed at some of the intersection points, possibly representing toll stations or key locations. The overall design is clean and modern, with a focus on connectivity.
