

**THE ILLINOIS STATE TOLL HIGHWAY AUTHORITY**

**April 5, 2018**

**CONSTRUCTION BULLETIN No. 18-01**

**SUBJECT: Bridge Deck Concrete Crack Sealer (Special)**

The incorporation of Bridge Deck Concrete Crack Sealer (Special) is hereby suspended.

For those contracts recently awarded but no construction has taken place, the Project Manager will notify the Contractor of this suspension and will pursue a unit price for Bridge Deck Concrete Sealer for the Tollway's review and consideration. For those locations subject to an Intergovernmental Agreement with another public agency, the Project Manager will notify the respective agency of the Tollway's position and shall ask if the application of Bridge Deck Concrete Sealer, in lieu of the prior crack sealer, is acceptable. The Project Manager will document such acknowledgement in writing.
