

# IL ROUTE 53/120

## Blue Ribbon Advisory Council

# REVISED WORKING GROUPS

The Illinois Route 53/120 Blue Ribbon Advisory Council was convened in June 2011 to assist in the planning and potential building of the IL-53/120 North Extension in Lake County. The Council includes representatives of transportation, planning and local government agencies in Lake County, as well as members of the business, transportation and environmental advocacy community. **The Council includes three working groups** that will focus on various elements of the project, as shown below.

Please Note: All Mobility & Finance and Design & Land Use Group meetings will occur on the same day to better accommodate Council members' schedules.

<b>Mobility and Finance</b>  This group will determine how the route can most effectively move people and goods in Central Lake County. Members will evaluate traffic model information and consider how to manage traffic through: integrated transit service; limited access; congestion pricing; use of Intelligent Transportation Systems (ITS); and other technologies. The group will also evaluate options for funding and financing the project.	<b>Design &amp; Land Use</b>  This group will focus on how the route connects to communities in the corridor. Members will consider the size and design configuration of the roadway, and will evaluate aesthetic, land use and economic development factors.	<b>Environment &amp; Sustainability</b>  This group will focus on how the route co-exists with the surrounding environment, and consider how sustainability can be incorporated in all aspects of design and construction. Members will evaluate visual and noise impacts, consider storm water and other national best practices, and outline measures to mitigate potential environmental impacts.
