The Illinois Tollway Technical Assistance Program prepares emerging and established transportation-related construction firms including disadvantaged, minority- and women-owned firms, as well as veteran-owned and small businesses, to participate as prime contractors and subcontractors on highway and vertical construction contracts, including the Tollway 15-year, \$14 billion *Move Illinois* capital program.

As a result of the Tollway's investment, more than 550 bids total have been submitted by clients since 2017, including nearly 210 bids on Tollway projects. These bids submitted on Tollway projects have resulted in 26 firms winning bids as prime or subcontractors on 19 contracts in 2017 and 59 contracts in 2018.

Participants in the Technical Assistance Program receive comprehensive, customized business development assistance to build financial understanding and business plan development for increased business stability and growth in the transportation-related construction industry. Services are customized to the assessed strengths, challenges and needs of participating firms. This includes education, guidance and feedback on general business and construction-specific operations, including strategic planning and assistance with the Illinois Department of Transportation (IDOT) pre-qualification application.
