ILLINOIS TOLLWAY READY FOR WINTER STORM BRINGING HEAVY SNOWFALL AND STRONG WINDS

Drivers reminded to slow down, steer clear of plows and emergency vehicles

DOWNERS GROVE, IL – The Illinois Tollway is mobilizing its full fleet of 196 plows to clear roads and keep customers safe during a winter storm moving into the area early on Friday, January 12, and continuing throughout the day, bringing snow and high winds that could reduce visibility and affect pavement conditions. The Tollway’s Snow Operations Center will be open to manage the agency’s systemwide response to the storm, which could hamper Friday morning and evening commutes.

“We’ll be working throughout this storm to protect our customers by keeping our roads clear of snow and ice, but we’re urging customers to assist us by slowing down and being alert for changing pavement conditions,” said Illinois Tollway Executive Director Cassandra Rouse. “We’re asking customers to increase their distance from other vehicles to give themselves an extra margin of safety, especially around plows and emergency vehicles.”

To respond to this winter storm, the Illinois Tollway has a full complement of more than 200 staff and supervisors working per shift – around the clock, if necessary – to keep roadways clear of snow and ice.

Before traveling, to receive real-time information on pavement conditions and roadway incidents, drivers should sign up for Tollway Trip Tweets at twitter.com from the Tollway’s website at illinoistollway.com follow all five Tollway Trips or just the roadways that interest them. The five are: [@94_294_Tollway](https://twitter.com/94_294_Tollway), [@I_90_Tollway](https://twitter.com/I_90_Tollway), [@I_88_Tollway](https://twitter.com/I_88_Tollway), [@I_355_Tollway](https://twitter.com/I_355_Tollway) and [@IL_390_Tollway](https://twitter.com/IL_390_Tollway)

While on the road, drivers whose vehicles become disabled should activate their hazard lights and dial *999 from a cellphone for assistance. Drivers should note the roadway they are using, as well as the direction of travel and nearest milepost or crossroad. For crashes involving property damage only, drivers should report the incident to 630-241-6800 ext. 5042 and continue driving.

The Illinois Tollway reminds motorists the state’s “Move Over Law” **requires** motorists to change lanes or to slow down and proceed with caution when passing any vehicle on the side of the road with hazard lights activated.

Drivers also should use caution when passing snowplows. During heavy snowfall, snowplows often work in tandem to remove as much ice, slush and snow as possible from all lanes at once. When it is safe to pass, the plows spread out and allow traffic to flow around them.

Winter Weather Travel Tips

The Tollway offers the following travel tips to keep safe during dangerously cold weather:

1. **Be sure your cell phone is fully charged** before heading out.
2. **Be sure tires are properly inflated** during cold weather. Tires lose a pound of pressure for every 10 degrees the temperature drops.
3. **Keep your gas tank at least half full** to avoid gas line freeze-up and ensure that you have extra to account for additional driving time if the weather is unfavorable.

-more-

4. **Keep a cold weather safety kit** in your car that includes gloves, boots, blankets, road flares, water and a flashlight with fresh batteries.
5. Stranded motorists should **turn on their emergency lights and remain in their vehicles** until help arrives.
6. Cell phone users should **call *999 motorist assistance** for roadway assistance and note the roadway and direction of travel and nearest milepost or crossroad.

About the Illinois Tollway

The Illinois Tollway is a user-fee system that receives no state or federal funds for maintenance and operations. The agency maintains and operates 294 miles of roadways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I-80) and the Illinois Route 390 Tollway.
