## **OVERNIGHT RAMP AND LANE CLOSURE SCHEDULED THIS WEEKEND ON I-290 AT THE TRI-STATE TOLLWAY (I-294)**

*Ramp closure with detour and long-term traffic shift needed for ComEd transmission line work*

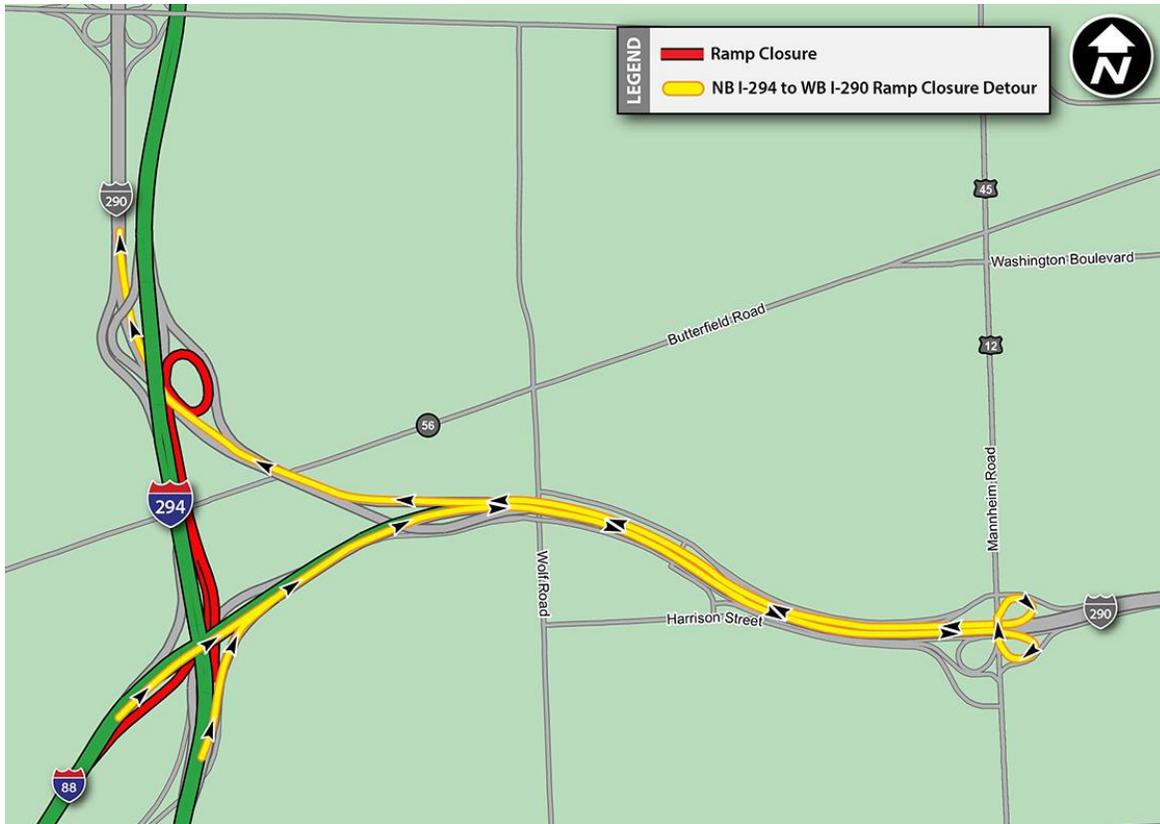

**DOWNERS GROVE, IL** – Overnight ramp and lane closures are scheduled this weekend on I-290 at the Tri-State Tollway (I-294) and will be followed by a long-term traffic shift to provide a work zone to safely accommodate work related to the relocation of ComEd transmission lines for Illinois Tollway construction.

Electronic message signs and construction signage will be put in place in advance to alert drivers to the overnight closures and detours. All work is weather dependent. Up-to-date information regarding lane closures will be available in the Illinois Tollway's [Daily Construction Alerts](#).

“The Illinois Tollway promotes safety of both drivers and workers as we plan and implement roadway improvements,” said Illinois Tollway Executive Director José Alvarez. “We will make every effort to minimize the impact of construction on our customers and ask drivers to please be patient and obey the work zone speed limits.”

On Sunday, July 26, beginning at 11 p.m. a double lane closure is scheduled to begin on westbound I-290 between Roosevelt Road and Electric Avenue for work to prepare for a traffic shift. In addition, at 11 p.m. the ramp connecting northbound I-294 to westbound I-290 is scheduled to close with a posted detour routing I-294 traffic to the exit at Mannheim Road and then through the interchange ramps in order to continue west on I-290. The ramp and lanes are scheduled to reopen by 5 a.m. on Monday, July 27.

Two nights of closures are scheduled to complete the traffic shift. When completed, westbound I-290 traffic will be shifted to the left and traffic will remain in this configuration through the end of the year.

Construction updates, project information, maps and detour information for work that is part of the Central Tri-State Tollway (I-294) Project are available in the Projects section on the Tollway's website at [www.illinoistollway.com](http://www.illinoistollway.com).

Construction in this area is being coordinated with the Illinois Department of Transportation, as well as local fire and police departments.

The \$4 billion Central Tri-State Tollway (I-294) Project is reconstructing and widening the roadway between Balmoral Avenue and 95<sup>th</sup> Street to provide congestion relief, update old infrastructure to meet current and future transportation demand and address regional needs. This work is part of the Tollway's 15-year, \$14 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*. More than 220,000 vehicles use the Central Tri-State Tollway daily.

### Work Zone Safety

Construction zone speed limits are in effect in all construction zones 24/7 and drivers should continue to watch for changing traffic patterns and use caution, especially when workers are present.

The Illinois Tollway reminds motorists that the "Move Over Law" requires motorists to change lanes or to slow down and proceed with caution when passing any vehicle on the side of the road with hazard lights activated. If you see flashing lights ahead, please move over or slow down.

Illinois State Police have zero tolerance for drivers speeding in work zones or failure to comply with the Move Over Law. The minimum penalty for speeding in a work zone is \$250 with up to a \$25,000 fine and a 14-year jail sentence for hitting a roadway worker. Penalties for failure to slow down or move over for a vehicle on the shoulder with flashing lights includes up to a \$10,000 fine, 2-year suspension of driving privileges and jail time, in extreme cases.

**About *Move Illinois***

The Illinois Tollway's 15-year, \$14 billion capital program, *Move Illinois: The Illinois Tollway Driving the Future*, is improving mobility, relieving congestion, reducing pollution, creating as many as 120,000 jobs and linking economies throughout the region. The first eight years of *Move Illinois* is on schedule and within budget, delivering the rebuilt and widened Jane Addams Memorial Tollway (I-90) as a state-of-the-art 21<sup>st</sup> century corridor and opening a new interchange connecting the Tri-State Tollway (I-294) to I-57. Progress continues on projects addressing the remaining needs of the existing Tollway system, delivering the Elgin O'Hare Western Access Project and reconstruction of the Central Tri-State Tollway (I-294).

**About the Illinois Tollway**

The Illinois Tollway is a user-fee system that receives no state or federal funds for maintenance and operations. The agency maintains and operates 294 miles of roadways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I-80) and the Illinois Route 390 Tollway.
